Search Screen

Basic Search – Clean, Easy & Intuitive

The screenshot displays the EBSCOhost search interface. At the top, a blue navigation bar contains links for [Keyword](#), [Publications](#), [Subject Terms](#), [Cited References](#), and a [More](#) dropdown menu. On the right side of the bar are links for [Sign In to My EBSCOhost](#), [Folder](#), [New Features!](#), and [Help](#).

The main content area features the EBSCOHOST logo on the left. To its right, the text "Searching: **Academic Search Premier**" is displayed, followed by a link to [Choose Databases »](#). Below this is a search input field, a [Search](#) button, a [Clear](#) button, and a help icon (a circle with a question mark). Underneath the search area, there are links for [Search Options](#), [Advanced Search](#), [Visual Search](#), [Search History/Alerts](#), and [Preferences »](#).

At the bottom of the page, there is a footer with links for [EBSCO Support Site](#), [Privacy Policy](#), [Terms of Use](#), and [Copyright](#). Below these links is the copyright notice: "© 2008 EBSCO Industries, Inc. All rights reserved." At the very bottom, there is a green banner with a recycling symbol and the text [EBSCO Publishing Green Initiatives](#).

Title: Measuring the Polar Meltdown.

Source: Technology Review

Date: November 2007

Subjects: RESEARCH, CLIMATIC changes, ICE Sheets, CLIMATOLOGY, ECOLOGY, GLOBAL warming, SCIENTISTS...

Abstract: The article offers a look at the efforts of the Intergovernmental Panel on Climate Change (IPCC), an international panel of scientists, to resolve the mystery associated with **global warming**. IPCC launched efforts to analyze the melting of ice sheets in the polar land masses Greenland and Antarctica. By measuring how fast ice sheets are melting, scientists can estimate how it could impact sea levels. Preliminary observations have shown that the movement of major glaciers in Greenland and the West Antarctic Ice Sheet is accelerating.

Abstract: The article discusses nuclear power and climate change. Nuclear power redevelopment is the central worldwide hot issue as climate change is now a permanent and inevitable phenomena that must be dealt with. World energy marketplace shifts make the energy topic serious as the industry publicists predicted spurts in construction after rising global temperatures became priority issue. Population increase and energy shortage is pushing the problem into the future. The article discusses the technology change, and uncertain policies.

How to Cite Images

When referencing images that come from articles, it is perfectly acceptable to cite the parent article.

If you want to specifically cite the image, use the article citation and make the following changes:

1. Check the article content for additional source information, such as a photographer or illustrator.
* If an alternate name is available, use that in place of the article's author(s).
2. If the image has a title or caption, use that in place of the article title.
3. After the article or image title and before the journal title, insert the image type.
Image types are: Chart, Diagram, Graph, Illustration, Map, or Photograph.
4. Replace the page range of the article with the page number for the image.

Abstract: The article offers a look at the efforts of the Intergovernmental Panel on Climate Change (IPCC), an international panel of scientists, to resolve the mystery associated with global warming. IPCC launched efforts to analyze the melting of ice sheets in the polar land masses Greenland and Antarctica. By measuring how fast ice sheets are melting, scientists can estimate how it could impact sea levels. Preliminary observations have shown that the movement of major glaciers in Greenland and the West Antarctic Ice Sheet is accelerating.
